## URI-PAK™ URINE COLLECTION SYSTEM

The Uri-Pak™ Urine Collection Kit offers all the components necessary for specimen collection, handling, transport, and testing. Uri-Pak™ is used in hospitals, laboratories, physicians' offices and nursing homes throughout the world.

### **The kit consists of five plastic bags each containing:**

- 100 - flared-top or rimmed polystyrene centrifuge tubes
- 100 - polyethylene snap-caps
- 100 - adhesive patient i.d. labels
- 100 - 3.5 oz. collection cups
- Optional 10-place disposable test tube rack

The Uri-Pak™ System is economically priced and may be purchased as a complete kit or by its separate components. Custom kits and private label packaging are available.

## URI-PAK URINE COLLECTION SYSTEMS

<b>Item #</b>	<b>Description</b>	<b>Unit</b>
112018R	Uri-Pak™ Kit with 12mL tube (#112017), blue caps, cups, labels & rack	500
112018	Same as above but without rack	500
112019R	Uri-Pak™ Kit with 12mL tube (#112017), yellow caps, cups, labels & rack	500
112019	Same as above but without rack	500
112028R	Uri-Pak™ Kit with 12mL Kova®-Type tube (#112015), yellow caps, cups, labels & rack	500
112028	Same as above but without rack	500
112029R	Uri-Pak™ Kit with 12mL Kova®-Type tube (#112015), blue caps, cups, labels & rack	500
112029	Same as above but without rack	500
112038R	Uri-Pak™ Kit with special design 12mL tube (#112030), blue caps, cups, labels, & rack	500
112038	Same as above but without rack	500
112039R	Uri-Pak™ Kit with special design 12mL tube (#112030), yellow caps, cups, labels, & rack	500
112039	Same as above but without rack	500
112013	Uri-Pak™ Kit with 12mL conical tube (#112010), plug stopper, cups & labels	500

## URINE CENTRIFUGE TUBES, POLYSTYRENE (PS)

112017	12mL urine tube, graduated, flared opening, 3 x 500/case	1500
112030	12mL urine tube with sediment bulb, graduated, flared opening, 3 x 500/case	1500
112015	12mL urine tube (Kova®-Type), graduated, flared opening, 2 x 1000/case	2000
112010	12mL (16 x100mm), conical bottom, graduated, polystyrene (PS)	2000

## CAPS

113136	Snap-cap, blue, 3 x 500/case	1500
113137	Snap-cap with sanitary grip, yellow, 3 x 500/case	1500
116142	Plug stopper, white, for #112010, 1000/pack	1000

## ACCESSORIES

112192	Patient identification labels, 25/sheet	2000
181019	Disposable test tube rack, 10-place, cardboard	50
6207	3.5 oz. plastic specimen cups	2500

## CONTAINERS

### 4 oz (120mL)

Our unique 4 ounce urine collection container features the EZ-Turn 1/4 turning screw cap which is designed to assist in the prevention of carpal tunnel syndrome. The lid opens and closes with one smooth movement, thereby minimizing the usage of the operator's hand and lower arm area, and reducing the stress placed on the wrist.

Container = Polypropylene Cap = Polyethylene

Item #	Description	Unit
5912	4 oz urine container, with label, individually wrapped, STERILE	100
5910	4 oz urine container, with label, individually wrapped, STERILE	200
5915	4 oz urine container, non-sterile	500
5914	4 oz urine container, non-sterile	100
5916	4 oz urine container, with affixed thermometer & screwcap, non-sterile	500

### 3.5 oz COLLECTION CUP (NO LID)

Container = Polystyrene

Item #	Description	Unit
6207	3.5 ounce plastic flexible cup, 100/pk	2500

### 6.5 oz COLLECTION CUP (NO LID)

- Graduated
- Pour Spout
- Packaged 25 per sleeve, 20 sleeves per case

Container = Polypropylene

Item #	Description	Unit
5920	6.5 oz collection container	500
5926	6.5 oz collection container with attached thermometer strip	500
5929	Paper lid for 6.5 oz containers	500

## **CONTAINERS, LEAK RESISTANT**

- Tite-Rite™ containers are the ultimate in leak-tight storage and transport of liquids.
- Ideal for hospital pneumatic tube systems.
- Tite-Rite™ caps are produced from polyethylene and contain an inner liner designed to compress against the uppermost walls of the container, providing an air-tight seal.
- Tite-Rite™ containers are produced from polypropylene and have molded graduations. Affixed formalin warning label provides writing space for patient information.

Container = Polypropylene Cap = Polyethylene

### **NON-STERILE, BULK PACKAGING**

<b>Item #</b>	<b>Description</b>	<b>Unit</b>
6518	20mL container	1000
6520	40mL container	600
6522	60mL container	500
6524	90mL container	400
6525	90mL container	400
6527	120mL container	300
6540	250mL container	100
6542	500mL container	100
6545	1000mL container	100

### **FOR URINE COLLECTION AND TRANSPORT**

<b>Item #</b>	<b>Description</b>	<b>Unit</b>
6523	60mL container with label, STERILE	500
6219	90mL (48mm) container with label & attached screwcap, NON-STERILE	400
6220	90mL (48mm) container, with tab label over cap, STERILE	400
6528	120mL (53mm) container, with label, STERILE	300
6529	120mL (53mm) container, individually wrapped, STERILE	100

## **URINE COLLECTION TUBES**

### **12 mL FLARED-TOP URINE CENTRIFUGE TUBES**

- Dimensions: 20 x 115mm

<b>Item #</b>	<b>Description</b>	<b>Unit</b>
112017	12mL polystyrene (PS), graduated, Ames-Type	1500
112015	12mL polystyrene (PS), graduated, Kova-Type	1500
112030	12mL polystyrene (PS) with sediment bulb, graduated, Whale-Type	1500
113136	Snap cap (blue) for 12mL flared-top tubes	1500
113137	Snap cap (yellow) with sanitary grip for 12mL flared-top tubes	1500

**12 mL URINE CENTRIFUGE TUBES**

- Graduated at 0.5, 1, 2.5, 5 and 10mL
- Dimensions: 16 x 100mm

Item #	Description	Unit
112010	12mL (16 x100mm), conical bottom, graduated, polystyrene (PS)	2000
112010-500	12mL (16 x100mm), conical bottom, graduated, polystyrene (PS)	500
112040	12mL (16 x100mm), conical bottom, graduated, polypropylene (PP)	2000
112040-500	12mL (16 x100mm), conical bottom, graduated, polypropylene (PP)	500
116142	16mm plug stopper, white	1000
116152	16mm flanged plug stopper, natural	1000

**15mL URINE CENTRIFUGE TUBES**

- Graduated from 0.5mL to 15mL in 0.5mL increments.
- Dimensions: 16.6 x 120mm

Item #	Description	Unit
6260	15mL polystyrene, 4 x 250/case	1000
6265	15mL polystyrene, 100/dispenser box, 10 boxes/case	1000
6261	15mL polypropylene, 4 x 250/case	1000
6266	15mL polypropylene, 100/dispenser box, 10 boxes/case	1000
6263B	Plug cap for 15mL tubes	1000

**QUICK-PREP™ URINALYSIS KIT**

- The best method for isolating 1mL of urine sediment for microscopic examination.

Item #	Description	Unit
3825	Quick-Prep urinalysis kit, tube and pipette	1000
3826	Transfer pipette only	3000
112010	Urine Tube only	2000

## URINE TRANSPORT TUBES

### 5mL POLYPROPYLENE - SELF-STANDING WITH SCREW CAP

- Material: Tube is Polypropylene (PP) • Screw cap is Polyethylene (PE)
- Graduated
- Dimensions: 16 x 56mm

Item #	Description	Unit
6101	5mL transport tube with screw cap (Screw cap packaged separately)	1000
6101C	5mL transport tube with attached screw cap	1000
6101S	5mL transport tube with attached screw cap, STERILE	500
181019	Cardboard rack, 10-place for holding 5mL transport tubes	50

### 10mL POLYPROPYLENE - SELF-STANDING WITH SCREW CAP

- Material: Tube is Polypropylene (PP) • Screw cap is Polyethylene (PE)
- Graduated
- Dimensions: 16 x 92mm

Item #	Description	Unit
6102	10mL transport tube with screw cap (Screw cap packaged separately)	1000
6102AM	Amber colored 10mL transport tube with screw cap (packaged separately)	1000
6102C	10mL transport tube with attached screw cap	1000
6102S	10mL transport tube with attached screw cap, STERILE	500
181019	Cardboard rack, 10-place for holding 10mL transport tubes	50

### 30mL - SELF-STANDING WITH SCREW CAP

- Screw cap is made from polypropylene (PP)
- Dimensions of tube: 23 x 90mm • Dimensions with cap: 30 x 94mm
- Non-graduated, Non-sterile

Item #	Description	Unit
109217	30mL, polystyrene (PS)	500
109220	30mL, polypropylene (PP)	500

### 30 mL SELF-STANDING WITH SCREW CAP AND SPOON

- Cap is made from polypropylene (PP)
- Spoon is made from polystyrene (PS)
- Non-graduated, Non-sterile

Item #	Description	Unit
109117	30mL with spoon, polystyrene (PS)	500
109120	30mL with spoon, polypropylene (PP)	500

### 50 mL POLYPROPYLENE - SELF-STANDING WITH SCREW CAP

- Tube is made of Polypropylene
- Cap is made from High Density Polyethylene (HDPE)
- Sterile tubes are Rnase/Dnase and Pyrogen free.
- White graduations and writing area.

Item #	Description	Unit
6255	50mL polypropylene, non-sterile, bulk	500
6256	50mL polypropylene, STERILE, bulk	500

## URINE STABILIZATION

### **Cul-Tect™ Urine Culture Stabilizer with Boric Acid/Sodium Formate** **Stabilizes Urine for up to 72 Hours**

Cul-Tect™ features a unique boric acid/sodium formate tablet that protects the inability of urinary tract bacteria for quantitation, culture and identification. The dissolving tablet stabilizes urine specimens for up to 72 hours at room temperature without altering microbiological testing procedures. More effective than boric acid alone, it helps prevent the "over-growth" of incidental organisms (typically skin flora) that may accidentally be introduced into the urine sample. Formulated for gentle bacteriostatic action, it maintains the characteristics of cultures and subcultures.

Cul-Tect™ is convenient for remote specimen collection sites, here delays of a few hours can mean the difference between accurate and inaccurate results. It decreases the need for costly, time-consuming repeat sampling as well as the potential misdiagnosis of urinary tract infections.

Cul-Tect™ comes complete with boric acid/sodium formate tablets and is available in several tube sizes. Select from a 10mL or 25mL polystyrene plug stopper tube, and a 15mL polypropylene screw cap tube. For larger samples, try our 90mL clarified polypropylene container. Conveniently graduated, it has a screw cap with built-in O-ring.

Cul-Tect™ comes complete with patient identification labels affixed to each tube. The ID labels contain ample space for writing the collection time, date, person's name and specimen number. Special packaging is also available upon request.

<b>Item #</b>	<b>Description</b>	<b>Unit</b>
9007	Cul-Tect, 12mL polystyrene (PS) tube with plug stopper	500
9000	Cul-Tect, 15mL polystyrene (PS) tube with screw cap	500
9004	Cul-Tect, 30mL polystyrene (PS) self-standing tube with screw cap	400
9001	Cul-Tect 90mL polypropylene (PP) container with screw cap	400

### **Bori-Vial™ Urine Culture Stabilizer with Boric Acid** **Stabilizes Urine for up to 27 Hours**

Globe's Bori-Vial utilizes standard boric acid powder for urine culture stabilization.

<b>Item #</b>	<b>Description</b>	<b>Unit</b>
9003	Bori-Vial, 10mL polypropylene (PP) self-standing vial with screwcap	500
9020	Bori-Vial, 30mL polystyrene (PS) self-standing vial with screwcap	400

## **Sedi-Tect™ Urine Preservative System** **Preserves Urine for up to 5 Days**

Sedi-Tect™ features special urinary preservative tablets that maintain the formed elements found in urine sediment samples and the key diagnostic markers used in reagent strip (dipstick) testing. The time-release tablets dissolve and activate rapidly. Samples remain stable for up to 5 days and can be stored or transported at room temperature.

Sedi-Tect™ protects critical diagnostic indicators (WBCs, RBCs, casts, crystals and ova) from lysis and decay by controlling microorganisms, osmolality and the pH. It is convenient for remote specimen collection sites, where delays of even a few hours can mean the difference between accurate and inaccurate results. Sedi-Tect™ also decreases the need for costly, time consuming repeat sampling.

Sedi-Tect™ comes complete with the urinary preservative tablets and is available in a variety of tube sizes. We offer 10mL polystyrene tubes with either screw caps or plug stoppers. Additionally, select from 12mL polystyrene flared-top tubes, 15mL polypropylene and 25mL polystyrene screw cap tubes. For larger samples, try our 90mL clarified polypropylene container. Conveniently graduated, it has a screw cap with built-in O-ring. Otherwise, choose from any style Globe container to meet your specific requirements.

Sedi-Tect™ is provided with patient identification labels affixed to each tube. The ID labels contain ample space for writing the collection time, date, person's name and specimen number. Optional affixed caution labels are available as is special packaging upon request.

NOTE: Sedi-Tect is not for use as a urine culture preservative. Use Cul-Tect™ or Bori-Vial™ for this purpose.

<b>Item #</b>	<b>Description</b>	<b>Unit</b>
9003T	Sedi-Tect, 10mL polypropylene (PP) tube with screw cap	1000
9005	Sedi-Tect, 10mL polystyrene (PS) conical bottom tube with plug stopper	500
9016	Sedi-Tect, 12mL polystyrene (PS) flared-top urine centrifuge tube with snap cap	500
9002	Sedi-Tect, 15mL polystyrene (PS) test tube with screw cap	500
9006	Sedi-Tect, 30mL polystyrene (PS) vial with screw cap	400
9009	Sedi-Tect, 90mL polypropylene (PP) container with screw cap	400
